Hazardous Weather

Hazardous Weather

Rainfall chances continue today with scattered showers and thunderstorms possible this afternoon and evening. Locally heavy rainfall may cause flooding concerns.

Scattered rain showers and isolated thunderstorms will continue across the region tonight.

Hazardous Weather

Tuesday's Rain Chances

Scattered Showers and Thunderstorms Expected Again

Weather Forecast Office
Fort Worth, TX
Issued Jun 29, 2021 3:05 AM CDT

Scattered showers and thunderstorms will increase in coverage through the day, peaking in the early afternoon, then diminish in coverage late in the day. Below average temperatures are expected with highs remaining in the mid to upper 80s.

Precipitation Chances Today

Valid Tue 7:00AM through Tue 7:00PM CDT

Weather Forecast Office
Shreveport, LA
Issued Jun 29, 2021 3:09 AM CDT

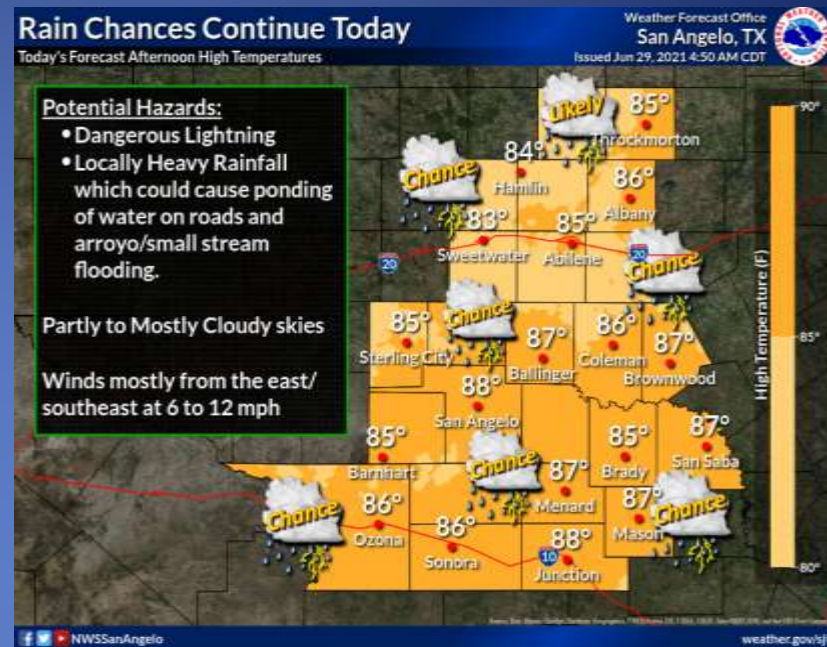

Showers and thunderstorms will once again be possible today, with the best chances coming for portions of our western areas.

Hazardous Weather

Here are Tuesday's rain chances.

Storm chances will continue Today, along with cooler than normal highs in the mid to upper 80s. Locally heavy rainfall will be possible due to slow moving showers/storms and high amounts of moisture in the atmosphere.

Hazardous Weather

There will be scattered showers and thunderstorms across South Central Texas. Temperatures will be lower with highs in the 80s and 90s.

Scattered to numerous showers and thunderstorms are expected today across South Texas. Coverage is expected to taper off this evening from east to west. Afternoon highs will range in the mid 80s to lower 90s.

Hazardous Weather

Some Showers and Storms Tonight

Mostly Cloudy with light SE winds

Weather Forecast Office
Corpus Christi, TX
Issued Jun 29, 2021 4:57 AM CDT

Isolated to scattered showers and thunderstorms tonight, with the highest chance over the waters near the coast extending northeast towards Victoria Crossroads. Lows in the 70s.

Scattered Showers & Thunderstorms

Mostly Cloudy | Heavy Rain Possible

Weather Forecast Office
Brownsville/RGV, TX
Issued Jun 29, 2021 6:00 AM CDT

Scattered showers and thunderstorms are expected today as an upper-level disturbance moves farther inland. Slow moving thunderstorms may support locally heavy rainfall later this morning into the afternoon. Otherwise, high temperatures today will be several degrees below normal in the 80s to lower 90s due to increase rain chances and abundant cloud cover. Mariners can expect light to moderate east to southeast winds and moderate Gulf seas.

Hazardous Weather

Flash Flood Watch

Remains in effect thru this afternoon.

Weather Forecast Office
Midland/Odessa, TX
Issued June 29, 2021 4:24 AM CT

A Flash Flood Watch now in effect thru most of today. Remember to turn around if you encounter flooded roads!

More Heavy Rainfall Expected

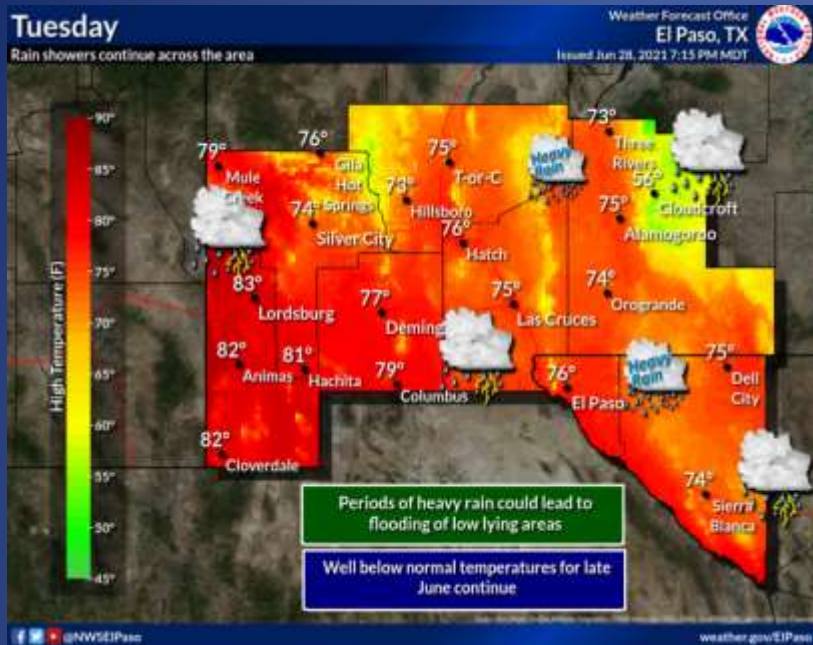

Best chances will be across southeast New Mexico and Trans Pecos.

Weather Forecast Office
Midland/Odessa, TX
Issued June 29, 2021 4:38 AM CT

Heavy rainfall will continue across western portions of the region today into tonight. New amounts between 1 and 3 inches possible.

Hazardous Weather

Cool and wet weather continues across the Borderland. Numerous showers and isolated to scattered thunderstorms persist through the afternoon hours, especially in area east of the Continental Divide. Periods of heavy rain are possible which could lead to flooding. The ground is saturated in areas that have received rain over the last couple of days, so runoff waters and flooding could happen quickly. Temperatures remain well below normal, around 15 to 25 degrees lower than usual for this time of the year.

More heavy rainfall is possible for Tuesday and Tuesday Night. Amounts and coverage will decrease from Monday, but the ground is saturated in many areas. Additional totals of 0.5 to 1.5 inches are possible with locally higher amounts. This could lead to flash flooding especially in areas that have already received a lot of rain. Please do not drive through flooded roadways. Turn around. Don't Drown.

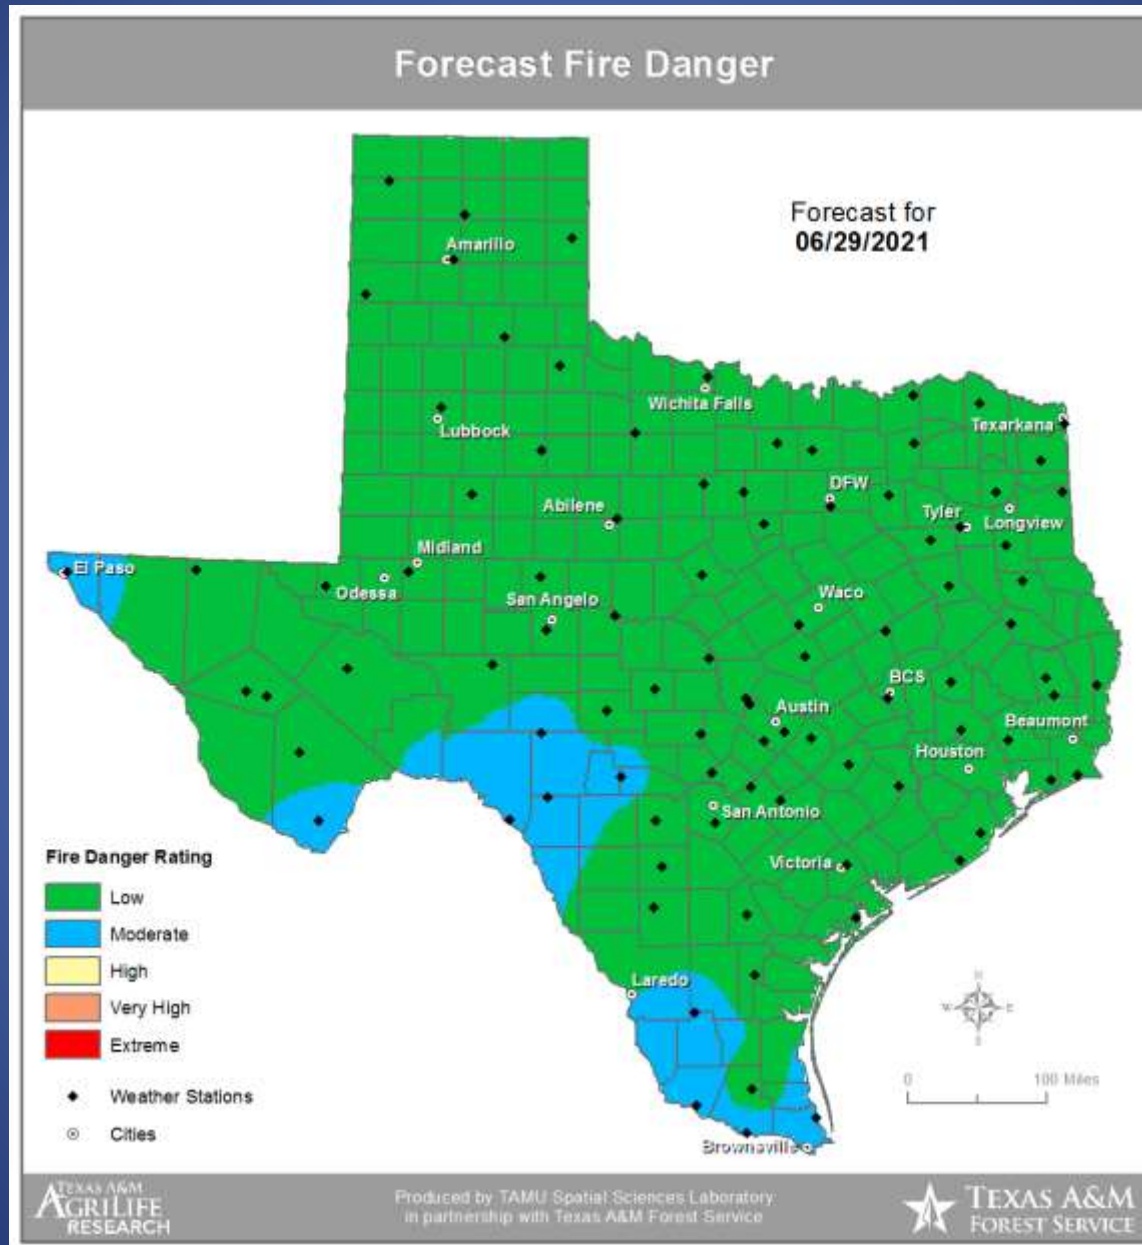

Weather Warnings/Advisories Issued

DATE	WARNING TYPE	LOCATION
06/28/21	Flood Warning	Borden, Dawson, Ector, Garza, Howard, Kent, Midland, Mitchell and Scurry Counties
